Commissioner of Patents and Trademarks

Notice of Non-Responsive Amendment:

The preliminary amendment mailed on Apr. 12, 2001 (paper no. 5) is in error because both the "clean copy" and "marked-up copy" of claims 1, 4-7 and 9-12 erroneously recite a "system" (without amending these claims to change the invention from a process to a system), whereas original claims 1, 4-7 and 9-12 are directed to a process. In the same manner, claims 14 and 15 in the preliminary amendment are erroneously directed to a "diesel engine", whereas original claims 14 and 15 are directed to a process. Claim 16 in the preliminary amendment is directed to a process, whereas original claim 16 is directed to a system. Claim 18 in the preliminary amendment is directed to a process, whereas original claim 18 is directed to a diesel engine. Claim 19 in the preliminary amendment is directed to a process, whereas original claim 19 is directed to an engine. The preliminary amendment sets forth that claim 22 has been added, but claim 22 is already present as an originally filed claim. Copies of the preliminary amendment and the originally filed claims are being submitted with this communication for comparison.

The applicants are given a non-extendable time period of one month (or thirty days, whichever is longer) from the mailing date of this letter to bring the preliminary amendment into compliance with 37CFR1.121. If no corrective action is taken by the applicants, this application will be examined without entry of this preliminary amendment (please see MPEP sections 714.01(e) and 714.03(a)).

Any inquiry concerning this communication should be direct to examiner Timothy Vanoy at phone number 703.308.2540.
